2008 President Report

As all of us are aware the prime focus this past year was our involvement as a partner with the Alberta Canoe Polo in sponsorship of the 2008 World Canoe Polo Championships. It was a huge amount of work for all of us involved and I cannot say enough to express my gratitude about the dedication and hard work put in by all of our primary Organizing Committee members to make the event a great success. There remain a few jobs such as selling off the water curtains, perhaps a few of the wharves and nets to help offset some of the financial stress on the Club.

The EWP was again active in putting together an Edmonton Team for the paddling activities of the Alberta Summer Games. Although off to a shaky start team recruitment finally brought a team together for training and they did quite well winning a number of medals including the Canoe Polo Gold. Good job guys. The EWP contributes volunteers and equipment to run the Canoe Polo portion of the Games in Medicine Hat.

Unfortunately little organized whitewater tripping was done last year although we did get one sea kayak trip to Murtle Lake after the Worlds.

In 2009 we look ahead to several events which the Club has a good chance to be involved with. Those include the 2009 Canadian National Canoe Polo championships and the Continental Cup of the Americas for 2009. In addition several EWP members are preparing to attend the Worlds Masters Games in Sydney, Australia in October.

I have very much enjoyed working with our executive over this past year and certainly would do it again.
